WUZ KANGZ. PLAY AS WAKANDA. THIS TOTALLY HAPPENED AND WUZ TEH KANGZ. DASRITE NO REVISIONISM GOING ON HERE WAZ KANGZ. DASRIIIIIIIIIIIIIITE. honestly its a nice skin whilst it doesnt come with any Scenario its a great piece for the BR Blue Collection. Wow, If it wasn't for the tutorial I would have had no clue. If like me you have no experience with these circuits and robots I recommend doing the tutorials twice. If you want a game that gives a progressively increasing challenge, love games with multiple solutions and love logic this game is for you. You build robots and design the circuits that run them. It is addictive and you have no idea where the time went.... The quintessential display of gentlemanliness is to sip Pimms on a sunny afternoon whilst discussing the stock market with your good friend Quincent, and taking turns to annihilate each other in this 21st century substitute for chess. Classy and sophisticated, this is a gaming gem you will always treasure.. For anyone who likes first person spaceship shooting games, this is a great find. The game play is solid, the story is smooth, and the action is packed. It will keep you busy for hours and leave you wanting to play it all over again. I'm anxiously awaiting the next release.. I have played many, many city builders. This game is not ready for play testing. There is no in game info to explain how to build up an economy. Even things that should be obvious like how to build a selected building are very counter intuitive. I managed to plopp houses a farm and a mill but the rules for placement of beyond houses needing roads are a mystery.

Bugs like a freeze-on-load I can forgive.

Zero explanation as to where buildings can go beyond that they must go on ground (as opposed to on water?) + most buildings not plopping down with no apparent reason why... that combo makes this unplayable in its current state.

Some serious upgrades are needed and I hope the developer follows through with them because I would like to see a city builder in this style. I do not recommend purchase even for play testing until a lot more work is done here.. It's a suprisingly good, high value game. Though admittedly, it can get rather dry at times.

. Played this game not on VR and the gameplay was just a headache. My character got stuck on items and you could not save your process.

My Maine Coon approves.

He also told me that you can go MEOW yourself if you don't like the game.

Yes, he's the savage kind, the one that would MEOW your MEOW up.

You've been MEOWED, erhm warned, sorry.. Awesome - serious omage to games like R-Type. I actually liked the story a lot on the first playthrough. Yes, it might be a little easy to see through in parts, but I feel like that about a lot of stories ... I read a lot and you learn to recognize patterns after a while. I liked the writing, too, even though it might perhaps be a little better every now and then.

The fact alone that I'm rating this game should show I like it ... I usually don't write reviews.. I can review soundtracks, huh? I guess it counts as DLC, lol.

Hunie Pop has a really fun soundtrack with a decent variety of pieces. And I completely agree with Kyu - the Ice Rink is the best by far. That track is my music bae for this game at least as much as Nikki is my character bae, if not more.

If you like the game, you probably like the music, and should get the soundtrack if you don't have it already. If you don't like the game, you should still check the soundtrack out. There's probably at least one track on it that you'll like.. now i don't have to be on a phone to play toilet phone games! Great!. *Need cool Wallpapers for desktop decoration, **this program is exactly what you need** . I've had nothing but enjoyable fun with this game. Love it enough to have picked up every piece of DLC.. Stinks like baes \u2665\u2665\u2665\u2665\u2665.. I cant use the plane but awesome game would rate 2\10 for the 10 mins i could actually play*
